The Kitfox S7 has no equal in its class. With useful loads up to 800 lbs, 27 gallon fuel capacity, 150 pound cargo capacity and excellent STOL performance, the Kitfox is just waiting to take you where most planes can only dream about and still cruise cross country comfortably on 5 gph. Having a wide cockpit, folding wings, and the ability to convert from tailwheel to nose wheel easily makes the Kitfox extremely versatile. The Kitfox Series 7 can be equipped with Rotax, Lycoming, Continental, Rotec Radial and many other engines.

**Fuselage**
- Precision welded 4130 Chromoly Steel Fuselage, Rudder, Stabilizer and Elevator - No Welding required and Ready for Assembly
- Tailwheel and Nose Landing Gear Structure, Float Mounts, Antenna Mounts, and External Cargo Pod Mounts
- Flight Controls are 4130 Chromoly Push-Pull tubes
- Rudder is Stainless Steel cable controlled
- Dual Control Sticks with Ball Bearings and Adjustable Stops
- Locking Flap Deployment System
- Pre-Formed Removable Full Lexan Turtledock
- Fiberglass Bucket Seats with Formed Under seat Storage Areas
- 4 Point Seat Belt and Shoulder Harness System
- Changeable Landing Gear System - Tailwheel to Tri-gear, Floats, Skis
- Preformed Acrylic Windshield
- Pre-Formed Aluminum Door Frames
- Full Length Lexan Gull Wing Doors
- Pre-Formed Aluminum Instrument Panel
- Large Baggage Area
- Complete Hardware package
- All Aircraft Standard Hardware, Including; Nuts, Bolts, Screws, Fasteners,

**Wing**
- 6061-T6 Aluminum Drawn Seamless Wing Spars
- 6061-T6 Aluminum Extruded I-Beam Insert
- Pre-Assembled Finland Birch Wing Ribs
- Upper Leading Edge False Ribs (3 per Bay)
- Two 13 Gallon Wing Tanks (Composite)
- Fuel Quantity Indicators
- Fuel Fittings and Fuel Lines
- Pre-Formed Aluminum Trailing Edges
- Heavy Duty 5/8” Drag/Anti-Drag Braces
- Pre-Assembled Aluminum Flaperons with Hinges Installed
- Flaperon Attach Brackets and other Components Anodized or Plated
- 1” Chromoly Lift Struts with High Strength Adjustable Rod Ends
- Precision Cut, Pre-Welded and Formed Lift Strut Attach Brackets
- 4130 Chromoly Jury Struts
- Pre-Formed Removable Wing Tips
- Complete Hardware Package
- All Aircraft Standard Hardware, Including; Nuts, Bolts, Screws, Fasteners, Washers, Spacers, Cotter Pins, Safety wire and Other items

**Landing Gear**
- Cabane V Gear System or
- Aircraft Certified Aluminum Spring Gear by Grove Aircraft
- 600-6 Wheel & Brake System with 1 1/4” Axle
- Hydraulic Brake System with Remote Reservoir
- Tailwheel Configuration - Steerable Tailwheel
- Complete Hardware package

**Covering Materials**
- Poly Fiber 2.7 oz Stamped Certified Fabric
- Poly Fiber Finish Tapes
- Fabric Cement (Poly Tak)
- Fabric Sealer (Poly Brush)
- Rib Lacing Kit

**Assembly Manual**
- Comprehensive Manual with Over 100 Illustrations and Photos
- Broken Down Into Small, Easy to Follow Steps

Real Airplane...Real Performance... Real Fun!
Kitfox Series 7 STi

STOL Inspired
STOL Performance. The STi is most at home going to the secret spot that's all yours.

$35,995.00

What is the STi? In essence it is a "STOL inspired" modified wing for the Kitfox Series 7. The STi is intended for the pilot who wants to fly low over the river, follow the winding valleys, hop from short field to short field while comfortably clearing obstacles...and who refuses to give up the "fun" factor of the Kitfox. Although a bigger wing, it is not lethargic like other slower platforms. The STi lowers the already low stall speed of our standard wing by approximately 10 MPH which allows for even slower flight and slower approach speeds, giving a little extra time while flying into those tighter landing strips. The wing does most of the work, so anyone who is comfortable flying our standard Kitfox wing can fly this wing with confidence! There are no special tricks or techniques required... simply a normal stabilized approach.

Kitfox Series 7 STi Firewall Back Kit includes: (tailwheel configuration is standard)
- S7 STi Fuselage Kit
- S7 STi Wing Kit - Quick Build Wing
- S7 STi Landing Gear Kit
- Covering Kit and Rib Lacing Kit
- Powder Coating (White, Red, Yellow, Gray, Flat Black, Gloss Black) please circle one

Included with the STi Firewall Back Kit: Quick Build Wing Package, Bottom False Ribs, Wing Lift Strut Fairings, Wing Vortex Generators, Mid Wing Fences, Wing Tips with Fences, Cabane "V" Gear with Shock Monster 2.0 gear struts, Dual Brake kit, Pre-Fab Bracket kit, Aluminum tailwheel spring with AK Bushwheel ABI-3200 Steerable tailwheel.

Tires and Tubes are not included in the STi package. We recommend the 29" Alaska Airstreaks

I, We, The Undersigned purchaser agrees that I, We, have read the terms and provisions set out in the Purchase Agreement and Release and that such terms and conditions form part of the contract as if fully set forth on the face hereof.

TERMS: All prices in USD, FOB, Homedale Idaho. Freight will be freight collect unless prepaid. Freight charges are estimates only and can vary slightly. Balances are due at least 15 days prior to shipment. Purchaser is liable for all sales, use and/or similar taxes resulting from this purchase that are levied by any agency for any jurisdiction, which may apply to this purchase.

**Kitfox S7 STi Options**
These are Options for the STi Aircraft

### Fuselage Options:
- **Speedster Tail Kit (Airfoiled Vertical Tail)**: $295.00
- **Adjustable Rudder Pedal Kit**: $325.00
- **Light Weight Pedal Upgrade (Puka Pedals)**: $150.00
- **Tinted Windshield - Upgrade**: $250.00
- **Acrylic Bubble Doors - Clear** (Regular $952.00, Tinted $766.00)
- **4130 Chromoly Streamline Horizontal Tail Struts (Replaces standard tail struts)**: $500.00

### Wing Options:
- **Factory Pre-Rig - Wing To Fuselage**: $895.00
- **Wing Dihedral, Wash-out and Sweep are pre-set to your fuselage**
- **4130 Chromoly Streamline Wing Lift Struts (Replaces standard wing lift struts)**: $3150.00

### Landing Gear Options:
- **T-3 Tailwheel Suspension Spring**: $450.00
- **850:6 Smooth Tread Tires and Tubes**: $500.00
- **Alaskan Airstreaks Tundra Tires 26"**: $2500.00
- **Alaskan Airstreaks Tundra Tires 29"**: $3100.00
- **Parking Brake Kit**: $325.00

The STi can be configured as a Tri-gear aircraft. However, it requires the Aluminum Spring Gear and 600-6 wheels and brakes.

- **S7 STi Tri-Gear Package - Upgrade**: $6390.00

### Lighting Systems:
- **Aero-LED’s Pulsar - Navigation / Strobe Lights (pair - left and right)**: $995.00
- **Aero-LED’s SunBeam Landing/Taxi Light (Single Light)**: $395.00
- **Tip Light Housing Kit for SunBeam (Single Light)**: $135.00
- **Aero-LED’s Sun-Tail - Light only**: $395.00
- **Tail Light Housing Kit - Rudder mount**: $99.00

### Cabin Options:
- **Cargo Bay Kit**: $575.00
- **Extended Cargo Bay Kit - 48"**: $725.00
- **Hinged Turtle Deck Kit**: $49.95
- **Cabin Vent Kit**: $370.00
- **Cabin Heat - Rotax engine only**: $495.00

### Upholstery Kit:
- **Velour – Color Choice**: $1395.00
- **Cordura - Color Choice**: $1095.00
- **Synergy Suede - Color Choice**: $1495.00
- **Temper Foam**: $150.00

### Miscellaneous Options:
- **Builders Tool Kit**: $425.00
- **Transport Kit**: $455.00
- **Cargo Pod**: $445.00

---

**STi Options Total:**
Kitfox Series 7 Super Sport

All Around Performance! A Sports Car and a Jeep.
The S7 Super Sport offers sporty performance for the best of both worlds.

$29,995.00

The Kitfox S7 Super Sport brings to life the thrill of building and owning an absolutely fun and safe aircraft that has no equal in its class. With useful loads up to 800 pounds, 27 gallon fuel capacity, 150 pound cargo capacity and STOL performance, the Super Sport is just waiting to take you where most planes can only dream about and still cruise cross country comfortably sipping on 5 gph. Having a wide cockpit, folding wings, able to convert from tailwheel to nose wheel easily makes the Super Sport extremely versatile.

Kitfox Series 7 Super Sport Firewall Back Kit includes:  (tailwheel configuration is standard)

- S7 Super Sport Fuselage Kit
- S7 Super Sport Wing Kit
- S7 Super Sport Grove Aluminum Spring Landing Gear Kit □ OR Cabane “V” Gear □ (tailwheel only)
- Covering Kit and Rib Lacing Kit
- Powder Coating (White, Red, Yellow, Gray, Flat Black, Gloss Black) please circle one

**The above kits can be purchased individually.**

Kitfox Series 7 Speedster
Sports Car with Wings
The Speedster offers sporty performance without compromising STOL
$33,995.00

Kitfox Speedster! Based on the highly successful Kitfox S7 Super Sport, we have created a clipped wing, aerodynamically refined and superbly stylized tail dragger.

The Speedster was originally introduced in 1992 using the Model IV platform and was demonstrated by Jimmy Franklin at Oshkosh that same year. What's old is NEW again. At Oshkosh 2017 Kyle Franklin (who was 13 when his dad flew the Model IV Speedster) demonstrated the New S7 Speedster.

"Having just completed creating the commemorative acro program, I can honestly say that the new Kitfox Speedster has exceeded my expectations by a factor of ten." (Kyle Franklin)

Welcome to the FUN flying arena that begs to render straight and level obsolete.

Kitfox Series 7 Speedster Firewall Back Kit includes: (tailwheel configuration is standard)
S7 Speedster Fuselage Kit
S7 Speedster Landing Gear Kit: Streamline Aluminum Main Gear and API 6" tailwheel
Covering Kit and Rib Lacing Kit
Powder Coating (White, Red, Yellow, Gray, Flat Black, Gloss Black) please circle one

Included with the Speedster Firewall Back Kit: Speedster Tail, Clear Bubble Doors, Dual-pin Door Latch, PVC Wing Lift Strut Fairings, 500-5 Wheels and Brakes, Main Gear wheel pants, Aluminum tailwheel Spring and API 6" tailwheel

I, We, The Undersigned purchaser agrees that I, We, have read the terms and provisions set out in the Purchase Agreement and Release and that such terms and conditions form part of the contract as if fully set forth on the face hereof.

From 80hp to 180hp the Kitfox has you covered. Here are a few popular choices. Ask us about other engine support options.

Rotax 912iS, 912ULS, 914UL, 915iS

Continental Titan XO-340

Rotec Radial R2800
Kitfox Series 7 Firewall Forward Options
The following options are common to all the Series 7 kits.
The Kitfox supports many different engine choices. If you don’t see what you’re looking for be sure and ask.

Firewall Forward Kits: Price does not include engine. Other engine component kits available
Rotax 912/912ULS Engine Component Package $4895.00
Rotax 912iS Fuel Injected Engine Component Package $5395.00
Rotax 914UL Engine Component Package $4995.00
Rotax 915iSTurbo Fuel Injected Engine Component Package $7950.00
Titan XO-340 - Engine Component Package $5995.00
Rotec R2800 Radial Engine Component Package $5995.00
Carbon Fiber Cowling Upgrade Package $1850.00

Engines: As an OEM for Rotax, we try and offer the best pricing available. Prices can adjust quarterly please call or email. Rotax engines purchased from Kitfox Aircraft includes the Ring (Truss mount) required for the S7 installation

Rotax 912UL (80 HP) $15813.00
Rotax 912ULS (100 HP) $18878.00
Rotax 912iS (100 hp Fuel Injected) $21973.00
Rotax 914UL (Turbo) $30638.00
Rotax 915iSTurbo Fuel Injected $36995.00
Titan XO-340 - 180 HP Engine $29,000.00
Rotec R2800 - Radial Engine $24,000.00

Kitfox Aircraft supports several different engine options, If Rotax isn’t for you, please ask about other supported engines

Propellers:
Propeller Kit 70” Whirlwind – Series 7-SS Rotax: (includes items listed in italics below) $2300.00
Propeller Kit 75” Whirlwind – Series 7-SS Rotax: (includes items listed in italics below) $2600.00
Whirlwind Composite 3 Blade ground adjust, Spinner 11.3” – Carbon Fiber (pre-cut for Whirlwind),2” Aluminum Spacer with Rotax Drive Lugs

MT Propeller systems available: (please call for current pricing)
Airmaster Propeller systems available: (please call for current pricing)
Kitfox Aircraft LLC, of Homedale, Idaho (Seller) manufactures and sells a sport aircraft in the form of home construction kits (the Kitfox). In the U.S.A., the Kitfox requires inspection and certification by the Federal Aviation Administration (FAA), under the provisions of the (FAR) Federal Aviation Regulations. Similar governmental agencies in other countries establish the qualifications and regulations, which apply to the Kitfox in those countries. The undersigned (Purchaser) intends to purchase one (1) Kitfox from Seller, understands, and agrees to the following conditions and requirements:

Limited Warranty

Seller's sole obligation to Purchaser after the sale is to replace, without charge, any part or component of this order manufactured by Seller and discovered to be defective within a period of twenty-four (24) months from the date of shipment from Seller. Provided that the Purchaser provides Seller with proof of having completed inventory of the ENTIRE contents of this order within sixty (60) days of ship date. Seller will not accept the return of old (used, unwanted, outdated, etc.) parts for refunds, credit, or trade-in value.

The only parts, which may be returned to Seller for extension of credit or replacement, are parts that do not meet Kitfox Aircraft LLC manufacturing or quality standards. Purchaser accepts sole responsibility for the proper assembly, testing, operation, and regulated maintenance of any Kitfox Aircraft LLC product and full compliance with all applicable aviation regulations.

The liability of Seller to Purchaser resulting from the sale of any Kitfox Aircraft LLC product, including liability for any latent defects found within the effective period of this warranty, shall not exceed the total purchase price paid for the aircraft by Purchaser. In no event shall Seller be liable for special incidental, or consequential damages including personal injury or property damage claims incurred by Purchaser or any other persons. Purchaser acknowledges that he or she has fully investigated and researched the undertaking of assembling a kit. Purchaser agrees that Seller has no obligation to Purchaser if Purchaser fails to complete the kit for any reason. This warranty is extended to ORIGINAL PURCHASE ONLY and is not transferable.

THE FOREGOING WARRANTY IS IN LIEU OF ALL OTHER WARRANTIES EXPRESSED OR IMPLIED, INCLUDING BUT NOT LIMITED TO, ANY WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE.

Aircraft Certification

Purchaser has read, investigated, and thoroughly understands the aviation regulations applicable to his use of the Kitfox, understands the certification requirements and the interpretation of the regulation by the various authorities. Purchaser recognizes and agrees that many factors beyond the control of Seller affect the certification of the Kitfox, including:

a. The final as-constructed quality and resultant airworthiness, which is directly and exclusively the result of the actions of Purchaser.

b. Varying interpretation by the FAA or other regulatory agencies of the regulations for certification of homebuilt or kit aircraft. Purchaser understands that Seller does not represent that any Kitfox will qualify for certification in any particular country or otherwise comply with any regulations and that Seller accept no responsibility whatsoever for such certification.

Purchaser accepts the sole responsibility for certification of any Kitfox purchased.

Kitfox Design Integrity

Purchaser understands that the overall design and construction of the Kitfox is based upon integral characteristics of airframe structure, critical engine and propeller characteristics, and critical aerodynamic and center of gravity characteristics. Purchaser understands and agrees that the engine and propeller and other critical components used on any Kitfox must satisfy all the requirements specified in Seller's product manual instructions and Purchaser agrees that the above characteristics are critical and integral to the design of the Kitfox. Purchaser agrees not to make any modification of any Kitfox and agrees not to use any parts, components, or accessories that are not authorized and approved by Seller. Purchaser assumes full responsibility for any consequences, damages or losses that may result from the use of any parts, components, or accessories that are not authorized and approved by Seller.

Purchaser understands and agrees that the proper assembly, pre-flight testing, and flight testing of the Kitfox is critical to the safe operation and maintenance of the aircraft. Purchaser agrees to take great care in following the assembly instructions provided to the Purchaser by the Seller, and agrees to use such care in the initial assembly of any kit and when adding or substituting any parts or components subsequent to the initial assembly.

Safety-Related Improvements

Seller may from time to time notify Purchaser of technological improvements developed by Seller. In some instances, Seller may deem such improvements to be very important to the continued safe operation of the aircraft and may designate such as mandatory improvements. Purchaser agrees to promptly purchase and install all mandatory improvements designated by Seller. And hereby agrees to indemnify and hold Seller harmless for any and all claims arising out of events which may have been avoided or the effects of which may have been reduced by the prompt implementation of mandatory improvements.

Indemnity and Release

Purchaser understands and agrees that many factors beyond the control of Seller affect the operational safety of the Kitfox including, but not limited to:

a. The assembly of the Kitfox and rigging of flight controls according to the instructions provided with the kit.

b. Performance by Purchaser or other if inspections, thorough pre-flight testing and flight testing procedures for determination of proper performances parameters, maintenance procedures and repairs of the finished Kitfox aircraft; and,

c. Safe operation of the Kitfox by Purchaser or others while on the ground and in flight.

Purchaser also understands and agrees that maintenance and/or repair of any Kitfox may involve the use of tools, equipment and construction methods, which may present safety hazards, which are beyond the control of Seller.

Purchaser acknowledges that Seller assumes no responsibility for accuracy of information or advice provided to Purchaser by individuals not in the direct employ of Kitfox Aircraft LLC.

Purchaser hereby indemnifies and holds harmless Seller from any liability arising from the assembly, use maintenance and operation of the Kitfox purchased under this agreement.

Proprietary Materials & Information

Purchaser understands and agrees that information proprietary to Seller, including Kitfox part features, design features and written documentation, and is supplied with the Kitfox for the sole use of Purchaser. Purchaser understands and agrees that such proprietary information is a confidential trade secret of Seller and is supplied to Purchaser solely to enable Purchaser to purchase, construct and operate a Kitfox.

Purchaser agrees to prevent any of Seller's proprietary information from being diverted from its intended use. Purchaser specifically agrees:

a. Not to copy or permit others to copy any Kitfox product manuals or other documentation supplied to Purchaser;

b. Not to duplicate or permit others to duplicate any parts or assemblies supplied to Purchaser; and,

c. Not to trace, photograph or otherwise record dimensional information, or to permit others to trace, photograph or otherwise record dimensional information from parts or assemblies supplied to Purchaser.

Address or Ownership Change

To ensure receipt of notices from Seller, Purchaser agrees to notify Seller in writing, within in ten (10) days, after Purchaser changes his address from the address below or after any change in ownership of the Kitfox. If ownership changes, Purchaser's notice to Seller shall contain the name and address of the new owner.

Applicable Law: Courts

This Agreement shall be interpreted, construed and enforced in all respects in accordance with the laws of the State of Idaho. Buyer shall not commence nor prosecute any suit proceeding or claim to enforce the provision of the Agreement, to recover damages for breach of or default under this Agreement. Or otherwise arising under or by reason of this Agreement other than in the courts of the State of Idaho or the District Court of the United States, District of Idaho. Buyer irrevocably consents to the jurisdiction of the courts of the State of Idaho with venue laid in Owyhee County and the District Court of the United States, District of Idaho.

I HAVE READ AND I UNDERSTAND AND I AGREE TO COMPLY WITH THE FOREGOING CONDITIONS FOR PURCHASE OF (1) KITFOX AIRCRAFT RECOGNIZING THAT THE LIABILITY LIMITATIONS CONTAINED IN THIS AGREEMENT ARE NECESSARY IN ORDER TO KEEP THE PURCHASE PRICE REASONABLY LOW. I HEREBY CERTIFY THAT MY PURCHASE OF THE KITFOX FROM SELLER IS EXCLUSIVELY FOR PERSONAL, EDUCATIONAL AND/OR RECREATIONAL USE.
**Common Questions**

**Build Time:** Build times will vary widely. We have had first time builders finish their Kitfox in less then 6 months. We have learned that the average build times are 1000 hours or an average of 18 months for those that have a full time job and family. Remember it is not a race. It is a fun journey that few will ever experience, enjoy it.

**Quick Build Wing:** The Quick Build Wing (QBW) can save as much as 200 hours of build time for the average builder. Having them factory assembled not only saves time but helps to assure the proper degree of washout (twist) is built into the wing during assembly and the correct hinge rib spacing and orientation is achieved. Here is a brief overview:

- **Bottom False Ribs:** 2.5 MM Plywood Ribs to be installed on the bottom of the wing to support the fabric and maintain the shape of the airfoil between the main ribs. Top False Ribs are required and included.

**Speedster Tail:** 2.5MM plywood ribs and fiberglass fairings for the vertical stabilizer and rudder. This options creates a symmetrical airfoil shaped vertical tail and rudder instead of a flat slab tail seen on many other designs. This option increases authority on an already very effective rudder and creates less drag.

**Adjustable Rudder Pedals:** Allows independent adjustment of pilot and passenger pedals to accommodate comfortable and positive rudder and braking control for those that are vertically challenged.

**Optional Puka Pedal upgrade shown**
(pooh kah) Definition= Hole; Opening

**Lift Strut Fairings:** Standard Lift Struts on the Kitfox are 1” diameter 4130 chrome moly round tubing. Installing the custom PVC streamline fairings on the struts is the single biggest speed enhancement. Pushing round tubing thru the air creates drag. Any streamlining is advantageous.

**Prefab Kit:** Popular and time saving ready to install parts for the control column, rudder pedals, trim actuator, wing fabric reinforcements, wing doubler at fuselage attach points, jury strut brackets, rudder pedal detent bracket (adjustable pedals only) and flaperon detent brackets.

**Wing Tip Upgrade:** This tip has the provisions for the AeroLED Nav/Strobe and the Microsun Landing/Taxi Light.

**Factory Pre-Rig - Wings to Fuselage:** Let us pre-set the wing dihedral, wing sweep and wash-out.

**Rudder Tail Light Housing:** Fits AeroLED Sun Tail.
