

**DENNEY**

**AEROCRAFT  
COMPANY**

**KITFOX SERVICE LETTER # 5**

**SUBJECT: FAB-11 & FAB 13 BUSHINGS, ELEVATOR CONTROL TUBE**

**TO: KITFOX SERIAL NUMBERS 56-112**

**FROM: DENNEY AEROCRAFT COMPANY**

**FAB-11 & FAB-13 BUSHINGS:** If the aft elevator tube has not been assembled, follow the instructions in this letter. Refer to page F-6 step 8. If the length of the smaller diameter of either the FAB-11 or the FAB-13 is less than 9/16" the first sentence of the **NOTE** under step 8 should be amended as follows:

Drill 2 #30 holes (180 degrees apart) not less than 3/16" from the end and drill 2 #30 holes not more than 3/8" from the end at 90 degrees from the first set. The above dimensions are for the smaller diameter of FAB-11 & FAB-13 only. Use the regular dimensions for the large diameter end of the parts.

***If you need assistance in any way, please call customer service. Before returning any items to Denney Aircraft Co. please obtain a Return Goods Authorization (RMA) number from customer service.***
